SDT200

Ultrasonic Detector

Economy without Compromise

- ✓ **The most complete range of sensors**
 - The SDT200 detector is equipped with an internal ultrasonic sensor and laser pointer
 - Additional Sensors:
 - Parabolic sensor with laser beam
 - RS1 Contact and Threaded with magnet and mounting pads
 - Extended Distance Sensor
 - Humidity and Mass Air Flow
 - Built-in non-contact Temperature
- ✓ **Energy Saving Applications**
 - Compressed Air Leak Detection
 - Steam Trap Inspection
 - Ultrasound Assisted Lubrication
- ✓ **Versatile and loaded with features**
 - Digital measurement display (dB μ V)
 - Active sensor notification
 - 4000 Point Memory
 - DataDump software transfers to PC
- ✓ **Quality meets economy**
 - Long battery life.
 - Intuitive icon navigation
 - Independent headset volume control
 - Robust and ergonomic
- ✓ **Available in ATEX version**
 - The SDT200 detector is also available in ATEX version for potentially explosive environment
 - ATEX Directive 94/9/CE (II 1 G / Ex ia IIC T3/T2 Ga)
